**Discover how to grab the best attorney in town, how to build a winning case, and how to save thousands of dollars before you step foot inside a courtroom!**

**You can avoid my \$7,000.00 mistake with time-tested strategies guaranteed to strengthen your defense. If your ex-husband is hell-bent on revenge, you need a winning line of attack. Read on to discover what you really need to know to win custody of your son or daughter.**

Let's face it.... Child custody battles are scary. They're stressful and unpredictable.

Other people are making plans for your child. The lawyers have their ideas. The judges have their own. Your ex is making life impossible.

And it's making you crazy.

You may even feel like you've lost control of your child's future.

You should be worried.

According to the 2000 U.S. Census, 3.1 million children live in single father households. That's triple the number from the 1980 Census...and if the trend continues, those numbers will continue to rise.

Unfortunately, I learned the hard way just how insane a custody battle can get. I paid two attorneys \$3,500.00 apiece before I finally found one who looked out for my best interest.

That's \$7,000.00 I could have used as a down payment on a new home or put in a college fund for my child.

It was money wasted, and I was hopping mad!

If you're taking the first step out of a volatile situation, or if you've already initiated child custody arrangements, let me show you how I left an abusive marriage and won custody of my son, despite my husband's attempts to use the court system to hurt me.

Here's a brutal fact of life: It's never easy when a family breaks up. And divorce brings out the worst in people. . . .

## Is Your Ex-husband Playing Dirty?

No one said this was going to be easy, but the fight is exhausting. Your attorney cannot give you any guarantees. You want straight answers. Your ex-husband is playing games and refuses to be reasonable.

Right now, you're going through hell.

I can help.

- ✓ Does your ex try to control you?
- ✓ Is he using his additional financial resources against you?
- ✓ Does he "play the system" to get back at you?
- ✓ Does he "create" situations or make allegations to make you look bad?
- ✓ Does he threaten you or your family?

If you answered "yes" to any of the questions above, you need a bold strategy to prepare your child custody case.

Hi, my name is Joan Baker, and I know you deserve better.

I was once where you are right now . . . lonely, scared, and confused. Fleeing a volatile situation. And worst of all, dealing with an irrational husband who wasn't going to divorce me without a fight. He promised war, and he stayed true to that promise.

When I left my marriage, I went head-to-head against my ex in a custody battle for our son. And I won.

But... it wasn't easy. I spent a lot of money and lost a lot of sleep before it was over. Unfortunately, the system that promised to protect my rights was the very system I had to take on to win my case.

You see, my attorneys really weren't all that helpful.

Whenever I asked questions about how to win my case, I got general responses but no real answers.

I didn't need "It-all-depends-upon-your-case" generalities. I needed a strategy. The future of my family depended on the outcome.

My child's future was at stake, and I felt helpless. I was frustrated and scared.

If you're at your wits' end and looking for proven ways to win custody of your child, I've written a guide packed with real-world targeted techniques that help you keep your child where he or she belongs. . .with you.

These tactics really work. They not only helped me, but they're also helping women all over the country. Women just like you are saving thousands of dollars and keeping their children with them by using the secrets I'm about to reveal to you.

But don't just take my word for it. Listen to what other women are saying. . . .

These women—and others like them—are learning how to win the most important fight of their lives. I can help you keep your children with you by avoiding some of the costly mistakes I made.

Don't listen to just anyone. You need someone who is on your side.

When you're in the middle of a child custody battle, you're vulnerable. When you're vulnerable, you make rash decisions.

## Are you willing to take that risk?

Let's talk about reality. . . .

### What Will Life Be Like If You Don't Win Your Case?

It's may be painful, but imagine what will happen if your ex gets custody of your children:

- ✓ Every other weekend visitations
- ✓ Saying Goodnight Over the Telephone
- ✓ Shared Holidays
- ✓ Scheduled Parenting
- ✓ Missed Moments With Your Child That You Can Never Get Back

With the right strategy, you won't have to worry about being a weekend parent. You won't have to worry about your child's well-being. Most of all, you won't have to worry about giving up your parental rights. Keep reading.... I'm about to show you how to get the critical edge in your custody battle.

There are 3 essential components you'll need to win your case: [\[Tell your graphic designer to make these numbers big graphics for effect.\]](#)

1. You'll need a good attorney. That's crucial.
2. You need to know how to get the most out of your legal counsel.
3. Finally, you'll need to learn how to use your ex's bad behavior to your advantage. That's right! His bad behavior will play an important role in your case.

### Divorce Makes People Ugly...

Other guidebooks assume that both parties are rational during divorce. Their tips and strategies are designed to help you during the best case scenario. However, I'm a realist. You and I know that divorce can get brutal. And when you add child custody to the mix, it gets even more complicated. That's why I focus exclusively on vengeful exes.

When the best interest of your child is cast aside by your ex and replaced with a vengeful spirit, you've got to respond strategically—not react emotionally.

Right now, you may feel like the system is working against you. Maybe your ex has taken a sudden interest in your child that wasn't there before. But since he's showing the court that he can be a "good parent," his past behavior may hold no weight when the court rules on custody issues. And that can be frustrating.

He may even break the court's orders. But it can often be hard to prove. That's why you need a plan.

What do you do?

You need answers right now, and that's where I come in.

## Why Should You Listen To Me?

Because I've been there.

When I left my marriage, my ex continued to find ways to emotionally abuse me.

I needed help, but my lawyers couldn't tell me how to make him stop the harassment. Instead, they were more interested in talking about psychological evaluations and the part they played in winning custody. It sounded great, but much of their advice was useless because we never made it to court.

The truth is. . . 96% of child custody cases never see the inside of a courtroom. In fact, most cases are settled before they reach that point. Although 4% of cases initiate litigation, only 1.5% complete it (divorcePeers.com).

My custody fight wasn't easy. My ex knew how to hurt me. And he knew how to manipulate the system, but I couldn't prove it.

That's when I took control.

I had already lost \$7,000.00, and I was too angry to hand over another dollar until I got some straight answers. Worst of all, I had to fight the "perfect father" illusion he created for the sake of the court.

I learned something very important from my experience. You must have your act together ahead of time. Prepare for a fight in court but expect mediation.

Here's why I needed a strategy. . . . What seemed like a clear-cut case of neglect and abuse to me was not so clear-cut in the court system. My soon-to-be ex-husband used the legal system to manipulate me, to threaten me, and to use our son as a pawn in his need to control me.

During the marriage he refused to help take care of our son. But only after I left him, did he begin to “care” about being a parent. Suddenly he wanted to do “the right thing.”

Outside the courtroom, it was a different story.

He didn’t look out for the best interest of our child. He promised war. And he stayed true to that promise.

Still, the court wanted to protect *his rights*.

## It Was Making Me Crazy

I knew it was up to me to win my case, so I researched and learned what it REALLY takes to win a child custody case. I talked to attorneys. I talked to mediators. It worked. I won.

And I knew there were other women who needed this information. So I wrote a guidebook called *Winning Child Custody Strategies for Those Facing Irrational, Vindictive, or Abusive Exes*. It’s designed to help emotionally abused women go through the court process with strategies that really work!

Once word got out about my guide, everyone wanted to read it. Some used my guide as a good offense. Others used it as a strategic defense.

Then something unexpected happened.

I heard from people who said my guide helped them, even though they had never been in an abusive relationship....

*“Despite the fact that I was not in an abusive relationship, your advice for finding the right lawyer for my custody battle proved invaluable. I’ve never had to face the daunting task of hiring a lawyer for anything before. Just when I was feeling the most frustration and confusion, I came across your e-book and decided to give it a shot. It really helped me ask the right questions and find an attorney I was comfortable with. I hope other women who feel as bewildered as I did find your e-book so they, too, can prevent wasting their time and money on the wrong lawyer.”*

Marjorie S. New York, NY

Then, attorneys started recommending my book....

*“This is an excellent resource for anyone going through a child custody case of any type. I practiced family law and wished my clients would have had a resource like this one to use as a reminder and guide. If you follow Joan’s advice, you will have a head start on what your attorney needs to represent you and help you win your case.”*

Regardless of your situation, *Winning Child Custody Strategies for Those Facing Irrational, Vindictive, or Abusive Exes* will help you. . .

### **“Thank you!”**

*"After taking my daughter and escaping my husband, I felt like I would never survive. Your personal story sounded just like my own. The cheating, the put-downs, the manipulations, always giving more chances thinking they will change, all of it could have been my life exactly. Thank you for sharing the personal details of your journey. I can't tell you how helpful it is to know I'm not crazy, and I'm not the only woman going through this. Your encouraging words were so comforting at a time I felt so alone." Anita Stillwell Chicago, IL*

### **“I found the perfect attorney!”**

*"Wow! Your e-book has helped me more than anything else in finding the right attorney and asking the right questions during my custody battle with my ex, especially the sections dealing with parental agreements and what to do during continued visitations. It is hard to stay sane when dealing with lawyers who don't seem to care as much as you do, but you helped me realize that I had to hold out for the right attorney. Your suggestions are really helping me build a stronger case. Thank you!" Janet Campbell, Rocky Mount, NC*

### **“My sister is finally safe!”**

*"I got your book for my sister who had just left her abusive husband. She was feeling so low and scared. Her husband was threatening her and saying he was going to get custody of their kids. After reading your book, I could see a change in her attitude. She was more confident and she found a great attorney. She also stopped him [her husband] from getting a good attorney by doing what you said in the book. She's not even worried about the case now." Suzanne Miller Richmond, VA*

### **“What a life saver!”**

*"Finally, someone has written a detailed guide about what to do when fighting a crazy husband for custody. Navigating through the paperwork, the courts, the mediations, etc., can be a nightmare. After getting your e-book and printing out a copy, I feel like I have a lifeline to help me through." Melissa Benton, New York, NY*

**“I no longer feel alone in my pain.”**

*"Thank you for your personal and heartfelt approach to something that feels shameful and taboo to talk about. After reading your story I was inspired." Mary Baker, Atlanta, GA*
