Dear Valued Subscriber,

My phone is simply ringing off the hook.....Ever since the new leaked out that
we're releasing a Russian Scientist's secret **Magic Weight Loss Super
System**.

Listen: There are hundreds of guys and girls out there who SAY they are the best weight-loss consultants out there. Nearly all of these "consultants" are available for consultation, too.

But... when the dust settles, and all the bravados are done and the temperature cools down, ***there is ONE GUY in the entire US who gets the prime appointments.***

His name is Yuri Maganov. No. You have not heard about him before.

**"I have trained with Yuri for many years and his weight-loss concepts have helped me a lot. They're always on the cutting edge."
-Bruce Willis**

That's because he is the best-kept secret in the "super star weight loss game". Those who use him - who rely on his expertise in losing the excess pounds, and teach them how to be in top shape at will – don't want to SHARE him with the rest of us.

Well, guess what? Through our deep contacts in Hollywood... I convinced Yuri to go on camera and blow the "weight-loss game" wide open. He agreed, because he's *tired* of the egos and bullshit required to work with Hollywood stars and pop-stars.

And it might cost him (when those jealous and skinny stars get wind of his "exposure")... he agreed to let YOU in on the secrets and tactics he uses to help himself as well as the stars is his care to shed unwanted weight at the switch of the button.

**"I consider Yuri to be one of the best teachers around. His weight loss methods always work. I lost 20 pounds working with him in 45 days.
-- Madonna**

The Best Part: It's so simple and easy to learn, I laughed all day long. After all these years of working with consultants, doctors, yoga masters and

Naturopaths.. especially the one who NEED you to work out 7 hours a day for years and months together to see any results.

I confirmed my doubt that the most effective weight-loss secrets are actually DAMN simple. They do not require dieting, starving or running like a dog in empty streets.

"Yuri and his concepts, were priceless when he helped me lose 20 pounds in just 13 days before starting Baywatch."

-- Traci Bingham, Actress

Not when you know the secrets Yuri is about to reveal to you.

Yuri is NOT a big guy. He is 6'2" and he is in his late 50s. For his age and size, he should have all the trappings of a basketball in his stomach, fat as pig. However, when we measured he still has the waist size when he graduated in his high-school and his percentage of fat in his body is a rousing 11%.

In the Music world, Madonna and Britney are the tops stars. But in reality they trust on Yuri for their slender body.

Bruce Willis and Tom Cruise can choose ANY weight-loss consultant, Naturopath or Yoga Master to keep their body weight in control. They ALWAYS choose to work with Yuri. Because they know that Yuri is the guy behind the scenes who is TEACHING so many weight-loss consultants and Naturopaths how to lose the excess fat and keep them from gaining back entry.

They go to the SOURCE. Jessica Alba, Mischa Barton, Rachel Bilson, Carrie Underwood... **they all choose Yuri when the chips are down.**

He helps top people. And he *trains* them to lose weight at will.

Because he knows how to impart super-effective weight-loss techniques directly into your nervous system... ***as fast as humanly possible!***

It's just totally *amazing*.

And I'll bet you're shaking your head right now. Almost every weight-loss product in the world says their stuff is "easy and simple." And it isn't, is it.

So... why should you believe Yuri?

Because — for once — it's TRUE. This guy has been in the "weight-loss game" for 20 years. Just take a look:

- He was a **Naturopath** who saw *to it that Jane Fonda was kept fit during the 80's*.
- He is a **"first choice" instructor** for Miss World and Miss Universe contestants.
- The top fashion consultants in New York and San Francisco *hunt Yuri down* for in-house training for their Top Models. (Big money is at stake here)

And... as a private health and weight-loss consultant, his name is secretly passed around among the most FAMOUS people in the world. Many *beg* him to teach his weight-loss miracle exercises.

The fact that we got Yuri to reveal his BEST moves on video... **can literally change everything you know about weight loss**. Overnight. And what you see will shock the heck out of you.

But this is a special offer and it's only available...

Why? Because... Yuri only agreed to let this material out for a test... . He wants to find out if any of his high-profile clients complain. (They pay him big-bucks, you know). My hunch says they will.
